

Ultraweld Exothermic Welding Certification Training

This training is *hands-on* and provides your team with understanding of Harger's Ultraweld exothermic welding process. The exothermic welding process is presented as a means of making permanent electrical grounding connections. The tools required to make a connection as well as the inspection process, safety and trouble-shooting are also discussed.

Attendees become certified!

How Do You Get Started?

- **W**ork with your Harger Sales Representative to pick a date and time that works best for you and your team.
