

#A206R Class II Aluminum 2 Bolt Connector

DESCRIPTION

- 3" long connector provides 1-1/2" of surface contact between conductors.
- Accommodates all main conductors including *A37R rope-lay lightning conductor*.
- Two 5/16" x 3/4" hex head stainless steel cap screws assure a positive electrical connection.
- Manufactured from high conductivity aluminum alloy.
- Recommended installation tool – 1/2" socket wrench, end wrench or nut driver.

APPLICATIONS

- Used when splicing aluminum conductors.
