

#213T
Electro-Tin Plated Bronze
Cable to Flat Metal Connector

 Listed 96

 Listed 467

DESCRIPTION

- Approximately 1 -3/4" x 2" two piece one bolt connector connects grounding conductors sized from #6 AWG through 4/0 to flat metal objects up to 1/2" thick

APPLICATION

- Ideal for bonding generator or propane tanks to a grounding system

INSTALLATION INSTRUCTIONS

1. Prepare mounting surface on either the propane tank leg or generator frame by grinding down to base metal
2. Apply a generous amount of anti-oxidant compound such as NO-OX onto the metal surface
3. Attach 213T clamp to mounting the surface and insert grounding conductor into the other side of the clamp and torque to 10 foot pounds
4. Exothermically attach the grounding conductor to the grounding electrode system
