

#211R Bi-Metal 4" Long 4 Bolt

DESCRIPTION

- 4" long, four bolt bi-metal connector provides a non-electrolytic connection between copper and aluminum conductors.
- Brass side accepts all main size conductors up to 17/32" diameter.
- Accommodates all main conductors including *A37R rope-lay lightning conductor*.
- Four 5/16" x 3/4" hex head stainless steel cap screws assure a positive electrical connection.
- Manufactured from high conductivity brass and aluminum alloys.
- Recommended installation tool – 1/2" socket wrench, end wrench or nut driver.

APPLICATIONS

- Used when splicing aluminum to main lightning conductors.
