

2/07T
2/0 AWG Concentric Tinned Copper Conductor

DESCRIPTION

- 7 Strand concentric tinned copper conductor
- Cross-sectional area of 133,100 circular mills
- Outside diameter of approximately 0.419"
- Finished weight of 410 pounds per 1,000 feet
- Conforms to the requirements of ASTM B-3, ASTM B-8 & ASTM B-33

APPLICATIONS

- Used for grounding electrical systems where high conductivity and some flexibility is required.
