

#LABA42A2GKCGB

DESCRIPTION

- Complete lightning protection grounding solution for exterior rooftop communication systems.
- LABA is a 12" x 10" x 5" enclosure (pictured).
- LABB is a 16" x 14" x 6" enclosure.
- Shipping weight approximately 20 pounds.

FEATURES

- NEMA 4x molded fiberglass reinforced polyester enclosure provides water tight environment for both surge arrestors and connectors.
- 2 premounted bi-directional surge arrestors protects against lightning induced surge currents.
- Lightning arrestor ground bar design allows the addition of 2 more arrestors.
- 2 coax ground kits provide low impedance ground path.
- Coax ground bar provides ground point for coax lines as well as antenna mount.

APPLICATIONS

- Used in wireless rooftop communication applications such as broadband point to point, point to multi-point and other similar type systems.
