## **Pricing Adjustment Announcement**

To our Valued Customers,

Thank you for your partnership and continued support. Our team is committed to controlling costs while improving operational efficiencies and productivity. Harger strives to provide the highest quality solutions and customer service, alongside the shortest lead times possible. We have continued to see increases in labor, logistics, utilities, freight costs, economic pressures, inflation, as well as raw material prices driving costs up.

As a result, we are announcing a price adjustment effective August 10th, 2026. The adjustment will range from 0-15% dependent on product line.

We will accept orders at current pricing through close of business on August 7th, 2026, and all quotes expire at this time.

Orders placed on or before August 7th, 2026, may be limited based on current and / or historical purchasing patterns and may be subject to pricing revisions.

All pricing will be updated in the Harger Sales Portal for applicable parts.

We at Harger look forward to continuing to be your trusted partner for all your lightning protection, grounding and exothermic welding needs. Please feel free to contact us if you need any additional support during this transition.

Best regards,

**Adam Cash**

Marketing Manager, Harger
